I am sure that all who visited the schools have been pleased with their improved appearance, both inside and out. Teachers and pupils are both much happier in cleaner, lighter quarters.

Efforts have been made to improve the instructional program by supplying the teachers with new maps, globes, books to stimulate reading and new texts in social studies. The music program has continued successfully and through the voluntary assistance of Miss Hazel Stone, training in home economics has been provided for the girls in grades 6, 7 and 8.

It would be very desirable to provide the pupils of each school with some playground equipment. This would help solve the discipline problem that often arises at recess and also provide pupils with healthful recreation. At the present time, the Sullivan schools are the only ones in the union with no playground equipment.

Teachers in multiple-class schools are no longer being trained in our colleges. I consider the present teachers to be capable and dependable and hope the community has their services in the future.

I have enjoyed working with the Sullivan School Board and the citizens of the community and feel that much good has been accomplished during the past year.

CHARLES L. BOWLBY,
Superintendent of Schools.

REPORT OF HOME ECONOMICS TEACHER

Mr. Charles Bowlby,
Sup't of Schools,
Marlboro, N. H.

Following is my report concerning Home Economics in the 7th and 8th grades of Sullivan Center School:

For the first half of the school year, a room in my home was converted into a classroom for the purpose of conducting classes in home economics for the girls of the 7th and 8th grades.

Emphasis was placed on becoming familiar with the use of the sewing machine. Simple garments and Christmas gifts were constructed for members of the family, friends, and for the girls themselves. Every item attempted was completely finished before the completion of the course. Gifts were attractively wrapped. A Hallowe'en party was planned and carried out for all four grades of the school. A Christmas party for the girls alone was enjoyed.

The girls have made every effort to use their knowledge of good grooming at all times. They know how to select clothing wisely, dress appropriately on a limited budget, and keep their wardrobe in good condition.

It has been a great pleasure to work with these girls and witness their enthusiasm, and especially fine cooperation.

Respectfully submitted,

HAZEL G. STONE,
Home Economics Teacher.

Sullivan, N. H., January 22, 1951.

REPORT OF MUSIC SUPERVISOR

I herein submit my report concerning the elementary music program in the schools.

The chief aim of the music program is to develop love and appreciation of good music and the desire to participate in group work, both vocal and instrumental. A comprehensive course is offered, starting with the first grade and carrying through the 8th grade which deals with all fundamentals as well as with expression in ensemble work, tone production and rhythmic forms.

There is no lack of enthusiasm on the part of the pupil groups and this enthusiasm should carry through to community activities in the later life of the pupil.

Respectfully submitted,

AZALEA G. WILSON,
Elementary Music Supervisor.
